10/10 for not making a fuss when the world goes boom!

My underwear was safe at all times. this is a GREAT GAME! check out my vid <https://www.youtube.com/watch?v=DatT2GM0g5w>. Really good slow soundtrack, also the simple graphics really helped.

This would be one of my favorite games.. Amazingly simple. Beautifully challenging.

You can't get more bang for your dollar then this game right here. I wish more developers would make little gems like this. I reviewed this game with my first impressions at the very beginning of my nightly livestream which you can watch here:

[...For a dollar, you're gonna be hard pressed to get more for your money anywhere!. ORBITAL is a game that I recommend because:](#)

- [- it is a good indie & casual](#)
- [- it is colorful](#)
- [- it has strategy](#)
- [- it is addictive](#)
- [- the graphics are good](#)
- [- it is relaxing](#)
- [- it has a good concept](#)
- [- it has trading cards](#)

[Enjoy!. I have officially become the fourth person the review this game, and it's amazing. It focuses on a simple mechanic of controlling the direction of a moon around a planet to protect it from spacships and asteriods. One thing I wish this game had was a option to invert the right/left click for the directions, as it would be much better for me to play the game. It reminds me of Bit Blaster XL, and it's definitely worth getting for a dollar.. https://youtu.be/26CcIXCkcSU](#)

Really good slow soundtrack, also the simple graphics really helped.

This would be one of my favorite games.. I must say that it is a good game to pass the time, to de-stress or simply to make the best score among your friends. I like the idea that it has a simple mechanic and nothing out of this world. I would like to see this arcade on the mobile platform.. Very good game:

- 1) Nice soundtrack
- 2) Very simple
- 3) Funny game

It would be better if:

- 1) More powers
- 2) Reduce cooldowns
- 3) Add levels. Very good game:

- 1) Nice soundtrack
- 2) Very simple
- 3) Funny game

It would be better if:

- 1) More powers
- 2) Reduce cooldowns
- 3) Add levels. This is a very simple, easy to play game. There's not a whole lot to this game so I'll try to give the pros and cons here.

Pros:

- 1) Great soundtrack and simple visuals.
- 2) Relaxing, casual gameplay that's not overly difficult.
- 3) Simple controls (Although kind of awkward).

Cons:

- 1) No progression (All enemy types start being spawned from the beginning) and no increase in difficulty
- 2) Although some of the special abilities are cool, there doesn't seem to be a balance (One is practically useless, while others seem to help you too much).

Overall, for only a dollar, it's a good game for just sitting back and spending a few minutes just relaxing. And trust me with that background music, you will definitely feel relaxed.. Amazingly simple. Beautifully challenging.
